RAPID HIGH TACK

**THE BEST MS/HYBRID
POLYMER ON THE MARKET**

TWICE THE STRENGTH

20 TIMES FASTER CURE

MS-11

ADHESIVE & SEALANT

MS-11 Rapid High Tack is based on a hybrid-polymer formulation giving outstanding bonding and sealing properties. It offers the ultimate in initial grab and long-term adhesive strength. MS-11 Rapid High Tack bonds and seals all metals, including soft metals such as lead without staining, mirrors, all woods including timber, MDF and chipboard, natural stone and marble, most plastics, glass, concrete, polystyrene, polyurethane, laminates, plaster, cork, tiles etc.

It can be used both internally & externally. Non shrinking, non-staining, solvent free formulation, odourless and over paintable.

Waterproof, Mould Resistant

Outstanding Grab

Apply in the wet or underwater

Suitable for use with Mirrors, Lead etc
