KLEANX DECORATOR'S CLEANER

DESCRIPTION

For cleaning surfaces prior to painting, decorating or hanging wallpaper.

Removes grease, oily residues, dirt, cleaning residues and stubborn deposits.

Suitable for use on plaster, painted surfaces, wood, metal, tiles, glass and plastic surfaces. Ideal for cleaning walls, ceilings, furniture, window profiles etc. prior to decorating.

INSTRUCTIONS

Spray directly onto the surface and allow to react for a few seconds. Take up dissolved grease and dirt with a sponge or cloth and then wipe down with warm water. For particularly stubborn deposits, repeat the treatment using a sponge or brush and rinse off with water.

On sensitive surfaces, always check compatibility by testing in an inconspicuous area first. Very porous surfaces may not be cleanable if the dirt or stains have been absorbed into the material.

IMPORTANT

Check sensitive surfaces, such as e.g. on high-gloss paint, for compatibility on an inconspicuous place before treatment. It can be used on sensitive surfaces or on minor soiling diluted up to 1:10 with water.

HEALTH & SAFETY

For more information and precautions for use refer to the safety data sheet.

NOTE

All products should be sold in accordance with the manufacturer's instructions. The manufacturer cannot be held responsible where conditions of use are beyond our control. Full information and advice is freely available from our Technical Services Department e-mail technical@arcbuildingproducts.ie. Whilst any information contained herein is to the best of our knowledge true and accurate, no warranty is given or implied in connection with any recommendations or suggestions made by us, our representatives, agents, or distributors, as the conditions of use and any labour involved are beyond our control. Our warranty is therefore limited to the quality of supplied product.

TECHNICAL DATA

Property	Value
Density	1,01 g/ml
PH	11,0 -11,5
Colour	Milky liquid
Smell	Mild

PACKAGING

500ml spray bottles
6 units/box

INGREDIENTS

<5% nonionic surfactants,
phosphate, phosphonate
