MOULD^X ANTI-MOULD ADDITIVE

DESCRIPTION

Protect against mould when decorating. Additive for emulsion paint, wallpaper paste, plaster, mortar for immediate and long-term protection against mould and microbial infestation, particularly where there is thermal bridging and problem areas with unfavourable humidity conditions. Also for treating the sub-surface. Prevents the formation of mould, moss, fungi and algae.

EFFECT

Immediate and long-term protection against mould and microbial infestation by subsequent addition to water-based building materials. Prevents mould, fungi and algae formation.

AREAS OF USE

For dispersion paints, wallpaper paste, filler and grouting compounds and similar water-based building materials.

DIRECTIONS FOR USE

Dispersion paints: Add 25 ml per 1 litre of paint and mix well. Wallpaper paste: Put 250 ml into the mixing water per pack of paste and stir in.

Important:

Always check first for product compatibility. Prepare a sample amount in dispersion paints. The original consistency must be maintained, the paint should not thicken.

TECHNICAL INFORMATION

Property	Value
Density	1,00 g/ml
pH	≈ 7.0
Colour	Clear liquid
Smell	Mild
