

WEPOS Algae & Moss Remover

Description:

Concentrate. Self-acting- removes algae, mosses and green layers and protects against reinfestation. For all exterior surfaces of stone, wood, glass, concrete and ceramics. For patios, driveways, house facades, pavements, roofs, fences, roof tiles and roofing felt, paving stones, clinker bricks and flag stones, terracotta, etc.

Effect:

Self-active removal of algae, green patina and green deposits and protects against recurrence.

Application:

For terraces, gravel or brick drives, driveways, house facades, walkways, roofs, fences and all external surfaces such as stone, wood, glass, concrete and ceramic surfaces, roof tiles and roofing felt, sidewalk paving, clinker and paving stones, terracotta, a.s.o.

Direction of use:

The surface to be treated must be dry. Use straight from the container or diluted with water up to 1:20 according to the amount of green patina. Wet the surface well and evenly. Do not rinse and allow to work-in for a minimum 24 hours. Residues will disappear without further treatment of the surface. Only in case of stubborn staining use a stiff brush or scrubbing tool, or allow to work-in for longer. If necessary, repeat the application. Clean working tools with water after use.

Important:

Colour changes (brown-red) may occur to the green residues during the working in period, which disappear again after the action of sun and weathering.

Application rate:

Depending on absorbency of surface 1 L = 10–15 m²

Packing unit:

1000 ml-bottle (4 per box)

Technical Information:

- Density: 1,00 g/ml
- pH: ca. 7,0
- colour: clear fluid
- smell: recognizable
