

WEPOS Ceramic Glass Cleaner

Description:

For glass-ceramic and induction hobs. Gently and thoroughly removes greasy dirt, burnt-in marks, limescale and burnt-on food and leftovers. Provides a radiant, streak-free shine.

Effect:

Thoroughly and gently removes grease, scorch marks, lime spots and burned-on food. Regular use will create a protective coating that keeps food from sticking and lessens the risk of damage from burning sugary dishes, for instance. Provides a gleaming, streak-free shine.

Application:

Ceramic glass and induction cookers, stovetops, cooking surfaces, hot plates, fittings, lids, etc.

Direction of use:

Shake well before use. Only use on surfaces after they have cooled off! Remove large food scraps and loose pieces or encrustations with a cleaning spatula first. Spray a small amount on the cooled surface and rub in with a paper towel or cloth. Let it sit for a minute to absorb the dissolved dirt. Then rub with a clean, dry cloth and polish until it is free from streaks.

Packing unit:

750 ml-bottle (6 per box)

Technical Information:

- Density: 1,00 g/ml
- pH: ca. 9,5 - 10,5
- colour: clear liquid
- smell: pleasant

Safety Instructions:

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use.
