Art.-Nr. 2020203306

WEPOS Rust Stain Remover

Description

Acid free. Independently removes rust and other metal oxide residues with a deep penetrating effect from all natural and artificial stones, tiles and ceramic surfaces. Is not corrosive and eliminates rust caused by iron-containing fertilizer, garden furniture and metal tools, dripping taps, heating leaks, metal fences, etc.

For interior and exterior use.

Effect:

Removes rust spots and other metal oxide residues by itself with a deep penetrating effect from all natural and artificial stones, tiles and ceramic surfaces. Does not act corrosively and removes rust spots, which have been caused by iron-containing fertilizers, garden furniture and metal tools, dripping water taps, leaking heating systems, metal fences, amongst other things.

Application:

Suitable for use on all stone, artificial stone and ceramic surfaces – in both indoor and outdoor areas. In particular on acid-sensitive stone surfaces made of marble, granite, artificial stone, limestone and sandstone, terrazzo, slate or similar. Suitable for use inside the house and in the basement, on the terrace, driveway, sidewalk, walls, garage floors and facades.

Direction of use:

Saturate dried stained surfaces, applying a thorough and uniform spray coating. A violet coloration and typical odour signalise the onset of action. Allow to work in for 5 – 10 minutes. Afterwards work in with a sponge, brush or scrubber and plenty of water and rinse with lots of water. In case of older and stubborn rust spots, repeat the procedure until the rust stain has been completely removed.

Ensure good ventilation when using in closed rooms. Rinse the spray pistol well with water after use.

Important:

Higher temperatures on the surface to be treated accelerate and improve the effect. Do not use in temperatures below + 15°C, as far as possible. If necessary, pre-heat the substrate with a hairdryer or hot air blower. Do not allow the typical violet reaction coloration to dry on but rather rinse off with plenty of water. If violet residues should remain on light surfaces or in the pores, rinse again with water. Slight residues disappear under the influence of weather.

Technical Informations

- Density: 1,03 g/ml
- PH: 7,5 - 8,0
- colour: clear liquid
- smell: very characteristic

Safety instructions:

Harmful

Harmful by inhalation, in contact with skin and if swallowed.

Keep out of the reach of children.

Do not breathe spray.

Avoid contact with skin and eyes.

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Wear suitable gloves.

If swallowed, seek medical advice immediately and show this container or label.

Use only in well-ventilated areas.

Packing unit

750 ml-bottle (6 per box)

Please beware of: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. The liability of WEPOS for defective products and any claims for damages whatsoever is limited to the purchase price of the products. WEPOS shall not be liable for any consequential damages. No other warranty or representation is made or implied.
