

WEPOS Silicon Remover

Description

Removes easily and automatically freshly cured silicone grouting and silicone residues. Ideally suited for vertical joints and surfaces, thanks to its gel-like structure.

Effect

Removes easily and automatically freshly cured silicone grouting and silicone residues. Ideally suited for vertical joints and surfaces, thanks to its gel-like structure.

Application

Suitable for use on all wall and floor joints on non-sensitive surfaces in the sanitary, kitchen and living areas. Removes silicone from e.g. ceramic surfaces, tiles, enamel, acrylic, wood, glass, porcelain from e.g. shower stalls and bases, bathtubs, sinks, tiles, mirrors, amongst other things.

Direction of use

Shake the product well before use. Distribute the gel uniformly and thickly with a brush or cloth on the grouting to be removed and allow it to work in. The drying time depends on the thickness of the grout. Guideline: thin joints and silicone residues 15-90 minutes, thick joints up to 6 hours - if necessary, allow to work in overnight. Subsequently, wipe off the coating with a spatula or similar which swells up, and then rinse thoroughly with water.

Important

Before application, always check on an inconspicuous place for surface compatibility. Not

suitable for acid-sensitive surfaces, such as calcareous stone. May cause staining if used on natural stone surfaces. In the interests of safety, always mask adjacent

Technical Information:

- Density: 0,9 g/ml
- PH: >2
- colour: opaque pasty
- smell: aromatic

Hazard statements:

Causes burns. Keep locked up and out of the reach of children. Avoid contact with skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
