WEPOS Urinestone & Limescale Remover

Description

Intensive cleaner. Self-acting – eliminates urine stone, lime deposits, soap stone, rust stains and other stubborn dirt or deposits. For all acid-resistant ceramic surfaces in the sanitary area such as toilet, urinal, bidet or drainage installations as well as shower and baths.

Effect:

Self-acting elimination of urine scale, lime scale, soapstone, rust marks and other stubborn contamination or deposits on sanitary facilities.

Application:

For all ceramic surfaces which are not sensitive to acids in the sanitary area, such as WCs, urinal, bidets or drain channels and showers and bathtubs.

Direction of use:

Pour 150 ml undiluted into the washbasin. Distribute evenly with a brush and according to the degree of contamination allow to work for longer (if necessary, overnight). Then rework with a scrubbing brush and rinse off with plenty of water.

Important:

In the case of older and more severe soiling, it is recommendable to repeat the process. In very stubborn cases, remove the water at the bottom of the toilet, in order to use the product in a more concentrated form.

Do not use of acid-sensitive surfaces, chrome or enamel. Care should be taken to avoid splashing on limestone-containing natural stone or artificial stone surfaces such as e.g. marble, terrazzo, travertine and Solnhofener marble.

Technical Informations

- Density: 1,02 g/ml
- PH: 1,5 – 2,0
- colour: green/blue liquid
- smell: fresh
